we're celebrating!

It's been a long time...

175 years to be precise. That's when we proudly patented our first safe, back in 1835. Obviously a lot's changed since then, with security being more important than ever.

We've been the driving force behind much of the technologies and advances over the years with our dedication and commitment to excellence and staying two steps ahead of the criminals.

We'd like to share in our excitement by offering you the chance to experience our products at your nearest reseller and receive a special discount on any purchase...
